

LIC
P A C K A G I N G

Creating innovation, manufacturing solutions.

Our History

Constant innovation for more than 60 years.

1952

Giovanni Bertoldo begins his business activity as printer.

1961

The production of boxes is added to the printing activity.

1982

In addition to the offset printing,
we introduced the
flexo printing on corrugated.

1991

We installed our first corrugator.
LIC Packaging becomes the first
printing and paper Company in Italy
with «in-house» production
of corrugated cardboard.

1997

LIC Packaging designs, develops,
patents and launches
QET (Quick Easy Top)
the first transportation pack
that turns into a display.

2001

LIC Packaging joins the SAICA Group.

THE SAICA GROUP

€ 3.569 mln turnover

9.182 employees in 9 countries.

2004

An investment plan of 40 mln euros
in research, innovation and
manufacturing
capability strengthening
is approved and implemented.

2005

We created the **DISPLAY DIVISION** dedicated to the design, the development and the manufacture of display solutions for the point-of-sale.

2015

Eco&Yo u , the new sustainable business line of cardboard furniture, accessories and toys.

Live your furniture

The good of packaging

2016

At LIC Packaging R&D Team arrives an innovative corrugated cardboard, specific for direct food contact. A revolutionary material, as nature intended.

HT Board®

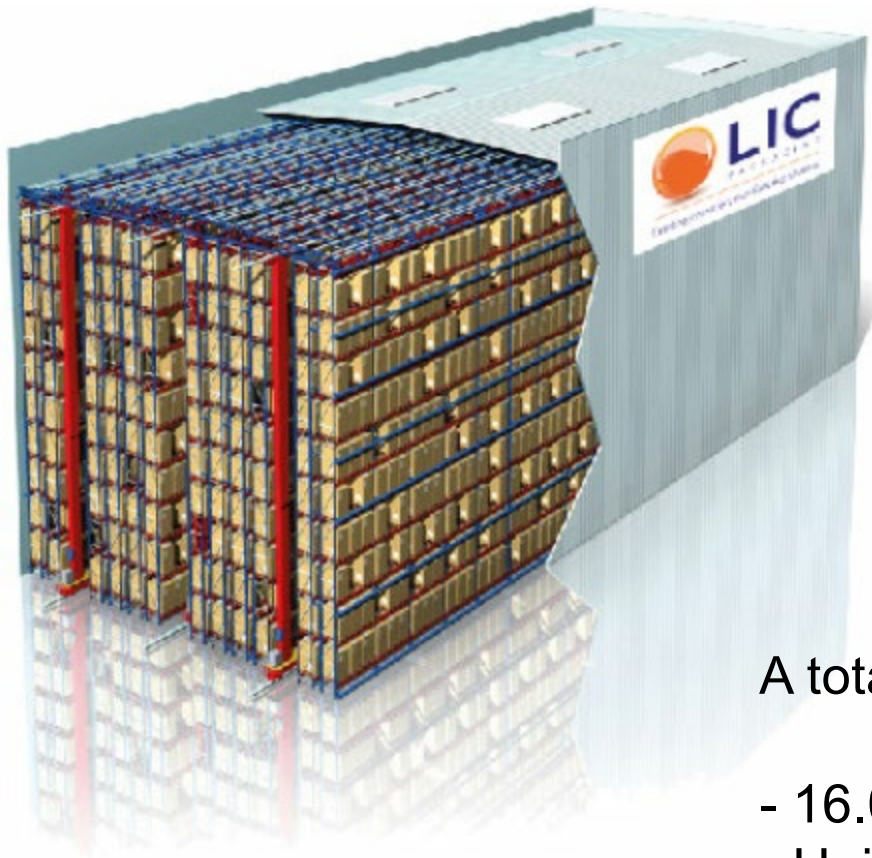

2018

Thanks to the HP C500 machine,
offset and flexographic printing are flanked by digital printing
on corrugated cardboard.

2019

New! High Bay Warehouse

A total area of 2400 sqm

- 16.000 pallets places
- Height: 30 mt
- 4 double depth stacker cranes
- Simultaneously handling of 150 pallets IN & OUT for hour

PRODUCTS

Our Products

Creativity, innovation, quality and efficiency are the keywords.

Packing the future

Packaging

A winning packaging is just like a tailored suit, developed following customer and product needs.

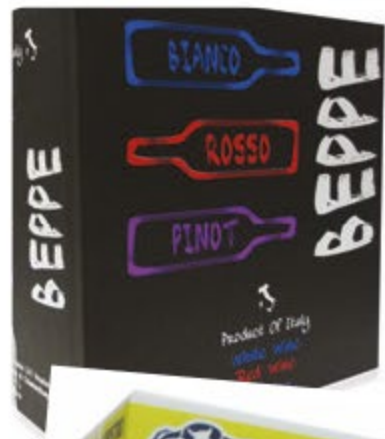

QET

(QUICK EASY TOP)

Two parts for only one piece in stock.

Available with:

- **AUTO-LOCK BOTTOM**
- **RSC STYLE**
- **WRAP AROUND SYSTEM**

RSC

(REGULAR SLOTTED CASES)

Also known as American boxes, made with corrugated cardboard, flexo and offset printed, glued or stitched by casemakers or folding and gluing machines.

By adding a perforation, they can be easily transformed into

SRP

(SHELF READY PACK).

Folding Cases

Primary and secondary packaging,
offset or flexo printed,
folded and glued on the production line.

We can manufacture folding cases
with auto-lock bottom, folding cases with
integrated divider, 4/6 corners cases.

Wrap and Die-cut products

Designed to ensure the maximum of flatness and stability during automatic filling/assembling. These packagings are printed using Flexo or Offset technology and then die-cut with flatbed or rotary die-cutters.

Luxury Packaging

Cross shaped boxes, T-shaped box cases,
Monocouvette and Creative cases.
Innovative and trendy solutions
with an elegant Design.
A packaging for the high-end market,
created using sophisticated
materials and decorations.

Displays & Solutions for the Point-of-sale.

To effectively enhance your products and brand in a winning way.

Floor Displays

Designed to expose creatively and to carry any type of product and weight, ensuring stability, long term durability and transportation efficiency.

Counter Displays

Designed to push purchasing impulse and product direct contact in a reduced space.

Functional and creative they ensure a safe transportation to the Point-of-sale.

Promotional Islands & To o l s

Solutions with a great communicative power designed to attract attention towards a product on a promotional/launching campaign. Created to provide a unique experience of the Brand inside the Point-of-sale.

Shelf & Visibility Tools

Creative and innovative solutions that can be made by using different kinds of materials. Specifically designed to increase brand recognition and to direct consumers towards the product.

Live your furniture

Eco&You

Modular cardboard furniture and handy accessories that
are totally respectful of Nature

Fairs and Events

A line of FSC® Certified cardboard stand furniture which guarantees the sustainability for fairs and exhibitions. The design and quality features make Eco&Yo u products practical solutions: modular, recycling and customised.
